Dear sir.

I saw a piece in a paper this morning that aroused my curiosity in regard to the number of dollars coined in 1804 and their value. It stated that there was only three coined and that two were accounted for and one was in the country, some place and that it was worth \$200. & that the missing dollar is in Tindley & P. A. Heghamey Co Pa. and I can get it if there is any thing worth while in it.

Write soon and let  
me know if that is the  
dollar and what it is  
worth.
